Gender Audit and measures for the promotion of Gender Equity

IQAC Government Degree College, Kulgam
[kulgamprincipal@gmail.com]

Social behavior, self-perception, and the allocation of power and resources within society are all influenced by a person's gender. Gender identity is a dynamic construct that exists on a continuum and is not limited to a binary (male/female).

Government Degree College Kulgam is dedicated to promoting gender equality in terms of gender identity or expression by including individuals of all genders—including women—in the administrative, social, cultural, political, and academic spheres of higher education.

The college has continuously aimed to promote women's education and foster an environment where academic performance, safety, and security are given top priority. The college has implemented several initiatives aimed at promoting gender equality.

Gender sensitivity and skill development courses mainstreaming gender are part of the college curriculum. These courses concentrate on providing a fundamental introduction to gender-based analysis championing gender equality, equity, and justice.

The college supports women in leadership capacities by handing them pivotal positions as Deans, Program Officers, Nodal Officers, Coordinators, and Conveners of various college committees and departments. The college takes pride in praising and rewarding its female achievers. Additionally, a mentor-mentee structure has been put in place to offer them direction and assistance.

To help protect women's safety on campus, video surveillance is in place in lecture halls, laboratories, and the campus itself. This implies that people's general facial expressions, signs of discomfort, harassment, or fear, are reported to the authorities right away in the event of any suspicious conduct.

The campus's safety measures are further strengthened by the presence of chowkidars, an access control system, and visitor management personnel at entry and exit points. Further, all students are required to wear the official college uniform and keep their identity card with them at all times.

The college is committed to providing a best-in-class recreation services and quality wellness on campus. The college features a large, well-ventilated Girls' Common Room with amenities for retiring and first aid.

The college also offers a range of amenities for female employees and students, including a well-stocked pharmacy, a day care facility, washrooms, parks, a gymnasium, browsing center, language laboratory and recreational spaces.

The college has an Internal Complaint Redressal Committee (ICRC) that meets with stakeholders on a regular basis to discuss complaints. Students can also file anonymous complaints or offer feedback and recommendations using the provided complaint boxes.

Government Degree College Kulgam actively celebrates national and international commemorative days that intersectionally promote diversity in gender identity, gender expression, and/or sexual orientation e.g., International Women's Day, International Mother's Day, International Youth Day, International Yoga Day etc.

The college's extension and outreach programs support women's education, their mental and physical health, sports and outdoor activities, entrepreneurship, empowerment, financial literacy, investment knowledge, property and legal rights, digital awareness, and cybersecurity.

The college has committed separate female and male NSS and NCC wings that promote patriotism, national integration, and fraternity. Together, male and female students actively underscore environmental consciousness, and Rashtriya Ekta.

In conclusion, Government Degree College Kulgam is dedicated to promoting gender equity and offering all of its students a supportive learning environment so they can grow up to be law-abiding, culturally aware individuals.

terrain it was quite difficult to reach over there. This village is also considered as one of the most backward villages of the district Kulgam. There are about 100 houses in the village. Volunteers assembled in an open field and the Draft Questionnaires were distributed among them. NSS Volunteers headed by NSS Programme officer, Dr Safer Ahmad Bhat surveyed the entire village on the basis of already set parameters. Volunteers were divided into groups in order to ensure the completion of survey properly. Each team was assigned with a particular area for surveying. A total of 21 households fulfilled the criteria i.e., the members of the said families were in the age group of 14-29 and were neither in formal education nor in regular employment as on the date of survey. Different households from the Gujjar Basti, a scheduled tribe community residing in the heart of village on the river bank also fulfilled the criteria and the details were collected from them as mentioned in the survey forms. After interacting with the local inhabitants of Lankar Pombi, It was disheartening to know about the lack of adequate financial resources to pursue higher education. A campaign on education as a right and a responsibility was also conducted for motivating the villagers to educate their children in order to enlighten their lives and bring laurels towards the development of society.

Day 7: Survey at Adopted Village, Ashthal

On the concluding day of the camp, a detailed survey of village Ashthal was conducted which was flagged off by the honourable Principal of the College, Prof (Dr.) Manzoor Ahmad Lone who interacted with the volunteers about their experiences at the new adopted villages by the Unit. With the village code of 003995, Ashthal village harbors about 195 houses. Previously the special camp of 2021 was conducted in the said village where series of programs were conducted in collaboration with the District Administration Kulgam. A socio-economic survey of the village was also conducted previously which revealed a dismal literacy rate more so among the females. This time special survey for those who were neither in formal Education nor in regular employment was exclusively done at the adopted village. A total of 21 houses fulfilled the criteria and details based on already set parameters were collected from them. Most of the people in the age group of 14-29 lacked the permanent source of income and there was a dearth of jobs and the people were expecting the help from the various government sectors in order to find a source of income to feed their families.

Post-Extension Lecture Report

Dept. of Islamic Studies, Dated 27-10-2022 Govt. Degree College, Kulgam as a series and regular feature of the college activities, conducted/organized an Extension lecture on the topic "Women Empowerment in Islam with Special Reference to Their Property Rights." Dr. Showkat Hussain, Associate Prof. Department of Islamic Studies, Islamic University of Science & Technology, was invited as the guest speaker. His Excellency, Principal, GDC, Kulgam Prof. Manzoor Ahmad Lone welcomed the speaker with an open formal speech. Dr. Irfan Jalal, I/C Head, dept. of Islamic Studies not only introduced the guest Speaker but the contemporary relevance/challenges as there has been much misunderstanding and mischief concerning Islam and women. In the given context, Dr. Showkat Hussain was invited for an extension lecture. He emphasized for the revisiting of the sources as Islam doesn't favor a specific gender. He elaborately talked about the specific provisions in the Social textual Scriptures of Islam which establishes the legal entitlement of both men and women to inheritance since material maintenance is a legally protected right in Islam. It is notable, argued the guest speaker that Islam's declaration of inheritance for women preceded the Western world by a millennium, where until the end of the sixteenth century, women were basically denied the right to inherit property. Whereas, one of the crucial changes brought about by Islam was the establishment of the principle of women's right to inheritance which constituted a radical departure from pre-Islamic and inhuman practices which not only denied women any right to inherit, but actually treated them as though they themselves were objects to be inherited. Other Faculty members of the staff including Dr. Iqbal, Head Bio-Chemistry, Dr. Halim, Head (Chemistry), Dr. Shamim Hakim and Irshad Ahmad (Computer Sciences), Dr. Aijaz, (Physics), Dr. Parvez and Saba Iqbal (Commerce), were present during the lecture. Fortunately, for being open many research Scholars from different Universities graced the occasion. Pertinently, a large no. of students mostly female attended and made it highly engaging by asking very relevant questions. Dr. Nisar Ahmad Bhat, Head Kashmiri Literature, Staff Secretary and Convener Seminars and Debates with his outstanding performance proposed the vote of thanks to everyone involved in making the event successful.

National Service Scheme (NSS) Unit of the College, in collaboration with Special Cell for Women, Kulgam Organised a one day Seminar on the theme 'Gender Equality and Legal Rights of Women' on 21st September, 2022. The event started at 11:00 am and was held in the College Conference Hall. The event witnessed the participation of around 70 NSS volunteers besides members from the faculty, non teaching staff and students from various departments. The seminar was aimed at spreading awareness regarding the rights of women and promote gender equality. The proceedings of the event were formally conducted by NSS Programme Officer, Dr Safer Ahmed Bhat, who formally welcomed the guests and brought home the importance of theme. The chief guest on the occasion, Worthy Principal of the College Prof (Dr.) Manzoor Ahmad Lone presented the introductory remarks and formally inaugurated the proceedings of the seminar. He highlighted the need for acknowledging the achievements and contributions of women in different fields and referred to numerous challenges that come in the way of Gender Sensitisation and the legal rights of women thereof. It was suggested that there was an urgent need for greater awareness to help curb crimes against women.

Resource persons from the Special Cell for Women, Kulgam broadly deliberated on Gender Sensitisation and the legal rights of women. The speakers, Razia Malik and Saima Shah, highlighted the importance of Gender equality in 21st Century and defined gender equality as the very heart of human rights and United Nations values. It was inferred that despite much progress made in securing women's rights globally, millions of women and girls continued to experience discrimination and violence, being denied of their equality, dignity and autonomy, and even a life. This discrimination and violence against women and girls, deeply rooted in the fabric of societies, was persistent and systematic. Talking about the legal perspective, it was suggested that some good practices that have increased women's access to justice have been so-called one-stop shops. They integrate services and offer Women victims everything from health care and counselling to legal aid and collection of evidence in one place, reducing barriers and cost. Furthermore, the resource persons highlighted the services of Special Cell for Women in

WOMEN IN LEADERSHIP: ACHIEVING AN EQUAL FUTURE IN A COVID-19 WORLD

This year, the theme for International Women's Day, celebrates the tremendous efforts by women and girls around the world in shaping a more equal future and recovery from the COVID-19 pandemic and highlights the gaps that remain.

Women's full and effective participation and leadership in all areas of life drives progress for everyone. Yet, women are still under-represented in public life and decision-making, as revealed in the UN Secretary-General's recent report. Women are Heads of State or Government in 22 countries, and only 24.9 per cent of national parliamentarians are women. At the current rate of progress, gender equality among Heads of Government will take another 130 years. Women are also at the forefront of the battle against COVID-19, as front-line and health sector workers, as scientists, doctors and caregivers, yet they get paid 11 per cent less globally than their male counterparts. An analysis of COVID-19 task teams from 87 countries found only 3.5 per cent of them had gender parity. This is why, this year's International Women's Day is a rallying cry for Generation Equality, to act for an equal future for all.
