Report

Awareness program on Handling of Radioactive material.

Reported by : Vahida Akhter (Convener Media Cell).

GDC Kulgam, 04-02-2025:- Th Government Degree College Kulgam organized a workshop on Handling of Radioactive in public domain and raise awareness and educate students on the crucial aspects of handling cases involving the presence and recovery of radioactive material in public areas. Given the potential risks associated with radioactive substances, this session aimed to equip students with the knowledge and skills required for safe and responsible management of such situations.

Objectives

To educate students about the risks and hazards associated with radioactive materials.

To provide guidelines on how to identify and report suspected radioactive material.

To familiarize students with national and international safety protocols.

To introduce students to emergency response procedures in cases of radiation-related incidents.

Key Sessions and Activities

The workshop was structured into multiple sessions, each addressing a specific aspect of radioactive material management:

Session 1: Understanding Radioactivity

Overview of radioactive materials and their uses in different sectors.

Types of radiation and their effects on human health and the environment.

Session 2: Identifying and Reporting Radioactive Material in Public Places

How to recognize potential radioactive contamination.

Reporting mechanisms and agencies responsible for radioactive safety.

Conclusion:

The workshop successfully sensitized students to the importance of handling radioactive materials safely. Participants expressed their appreciation for the expert guidance and recommended regular training sessions on similar critical topics.
