

Seminar "Building a New You: Shaping the Future of Healthcare"-Final Report

One day seminar and career counselling session was organised by the Department of Biochemistry in collaboration with Research and Publication committee, and Career Counselling Cell on Thursday, 22nd June, 2023

Biology and Regenerative Medicine, National Centre for Biological Sciences, Bangalore, India. The speaker spoke at

length about his career advancement and research work related to fibrosis, the dreadful and life

Regenerative medicine, a wondrous art, A symphony of life, playing its part, From the injured heart to the aging limb, It awakens hope, where despair was grim

in the college conference hall. The seminar was attended by around 150 participants including faculty and students. Dr Mohammad Iqbal Rather, Assistant professor and head Department of Biochemistry conducted the proceedings of the program and introduced the theme of the seminar. Prof Eazaz Hussain Rizvi, Principal of the college presided over the seminar, presented the presidential address and formally did welcome the participants and the invited speak Dr Abrar Rizvi, *Postdoc fellow Institute for Stem Cell*

threatening condition that can literally affect any of the tissues of the body. The speaker is an independent researcher who is working on to develop a therapeutic intervention in fibrosis particularly multiple sclerosis. The seminar was followed by a Q/A session and resource

person was kind enough to deliberate and give satisfactory answers to multiple queries. The seminar concluded with a formal vote of thanks presented by Prof

Abdul Haleem Wani, Head Department of Chemistry. After conclusion of the seminar, students had a separate session to interact with the resource person regarding their career opportunities in scientific research. At the end the organisers thank all the participant, particularly the speaker who took time out of his busy schedule

and travelled all the way from Srinagar to present the exciting and inspiring talk. We are thankful to the worthy principal for his unconditional support to organise such events and we look forward to organise more such events in times to come both for the growth of the institution and for the benefit of our main stakeholders i.e. students.
